R&D Urban Ecolodge director ECOOT Urban Ecolodge

From Rural Perspective to Smart City Ecotourism: Ecolodge Development in Mashhad

Rahim Ghazi[1]
TINN analytical and news network, Khorasan Razavi, Mashhad
info@rahimghazi.ir

Abstract
Ecotourism is a form of tourism aimed at preserving and enhancing the natural and cultural environment while creating benefits and opportunities for local communities and tourists. However, developing ecotourism in urban areas is a relatively new and under-researched phenomenon that presents challenges and opportunities for sustainable urban development and urban identity. To examine the impact of eco-tourism development on sustainable urban development and urban identity in Mashhad with an intelligent approach, I had to use a combined method that integrates quantitative and qualitative methods to collect and analyze data from various sources, such as case studies, surveys, interviews, and longitudinal studies. Additionally, various models and frameworks such as the Urban Sustainable Development Model, Identity Transformation Model, Kevin Lynch's Seven Criteria Theory, Community Capitals Framework, Participatory Rural Appraisal Principles and Tools, Defensible Space Concept, Endogenous Urban Development Model, Input-Output Analysis from Tourism Satellite Accounts, and Network Entropy were used to measure and interpret the data. Based on the results of my data analysis, I propose criteria and guidelines for developing eco-lodges in Mashhad that align with the principles and goals of sustainable urban development and urban identity, enhancing the sense of belonging among local residents and tourists, and fostering intercultural dialogue and understanding among different groups and cultures. I also compare my results with the existing literature and explain the contribution and significance of my research in the field of ecotourism, urban development, and intelligent approach.

Keywords: Ecotourism, Sustainable Urban Development, Urban Identity, Sense of Belonging, Intelligent Approach

1- Expert in Urban Planning and Tourism, Director of the Provincial Supervision of TINN Analytical and News Network

07/2020 – CURRENT Mashhad, Iran

Director of transportation and tourism Provincial Media Office Transportation Industry news Network (TINN)

Update: As of September 2024, the Media Office's license has not been renewed, and only tourism journalism is carried out.

Certainly, my goal in studying International Communication was to be a managerial position.
We were chatting with my father at lunchtime, and in explaining my studies in this field, I promised to get a position as a manager of a part of a business.
After gaining practical experiences and obtaining satisfaction from the companies with which I had cooperated, I was able to open the provincial supervisory office, a news site specialized in the transportation and tourism industry, in Mashhad.
Although it was not attractive to my father, if he had understood the graph of my ideas, he would surely have shown enthusiasm for my activities sooner than now.
Fortunately, since this activity is also contractual, I have a free hand in personal development. And from the scientific experiences here, for consulting as well as the development of urban ecolodge, I turned many threats and weaknesses into opportunities and strengths.

Improving the scientific level of the provincial supervisory office by 80% by writing an applied scientific paper at the National Conference on Tourism Planning and Development 2024 at Ferdowsi University of Mashhad.

Member of board of directors of the Alumni Association University of Bojnord

Constructive Interaction between Universities and Industry/ Job Creation/ Entrepreneurship/ Income Generation/ Job Boom

An unintentional and sudden invitation that led to a success. I did not know the subject of the meeting until the beginning of the meeting. I started working quickly and accurately, and I wrote and drew my network of communications, activities, and abilities on the tablet screen.
It was my turn to introduce myself to the president, vice presidents, Board of Trustees and graduates of the university.
Voting has begun.
The counting of votes has begun. The votes were displayed online. And I succeeded in being elected as the main members of the board of directors of the University of Bojnourd Alumni Association.

You should ask the university about the history and current situation of this association.

01/2019 – 11/2019 Tehran

Site Supervisor of a Contracting Company Manbati-Shafiq Contracting Company of Kayson Inc.

Supervisor of the construction site of three stores of international brands with a total area of 5800 square meters in the Big Bazaar of Iran project (Iran Mall) under the contract management of Kayson Company.

With my friend's suggestion, we traveled to Tehran for project-oriented work. It was a business trip. I was with my friend to make the project successful. Therefore, I considered it my duty to take on more responsibilities than that of a site supervisor.

Creating a warehousing platform.

Creating a financial management platform.

Innovation in coordination of communications and exchanges and bureaucracy between the workshop and the Kayson company and the mother company; It was one of my most important measures to increase my efficiency and that of the team.

My strategy to increase the approval factor of "the final construction and mechanical and electrical Asbuilt" was to continuously follow up on what I saw and heard with different methods.

So that we were 80% more successful than other contractors of our same level.

It is one of my favorites to always have a notebook with me while working. Of course, the ratio of my successes to my mistakes has been more.

Business or Sector Construction

09/2018 – 09/2019 Gorgan, Iran

Media manager Shafaq Art School

Working with a painting master, Mrs. Mohammadrezaei, was my first experience of managing media and advertising on the Instagram.

It is better to say that her influence on my growth has been more than my influence on her growth.

Business or Sector Information and communication

11/2016 – 11/2018 Najaf, Iraq

Executive assistant Owj Arts and Media Organization

This experience started from where my practical activities in doing work were seen.

With my friend's suggestion, a new adventure in the field of success began as a technical assistant for setting up a cultural and social media booth in an international event in Iraq.

Since I am always using my skill set, I was also active in communicating with pilgrims, visitors and tourists.

Also, working as an assistant technical technician in the radio media control room gave me a useful and efficient experience.

The strategy "go for what you fear" made me use all my strength during that time and increase the productivity of the team by 5%.

Business or Sector Human health and social work activities

07/2018 – 07/2018 Mashhad, Iran

Seminar Coordinator / Executive Assistant Empathy Covenant Forum

Executive assistant to the CEO in coordinating the affairs of organizations.

I received a call from my friends who work in the Islamic Republic of Iran Broadcasting Organization. He said that an important meeting is scheduled to be held with the presence of prominent speakers of the country. And there is a need for someone who can help the CEO to hold the conference properly.

I gladly accepted. I chose my clothes according to the project and started.

``The first National Meeting of Mahdavi Activists at the Astan Quds Razavi conference center.``

Getting to know the CEO and me was the first step, which was done when I went to welcome him and accompanied him to his home.

The next step was to check the schedule. The schedule included pre-opening, during, and post-conference stages.

The charm of this project was completed by watching the beautiful architecture of the shrine. Because many organizations were in the shrine for coordination and I had to take care of all of them.

I even designed and executed the stage of the conference lecture.

HOBBIES AND INTERESTS

Work

Count on me to make Prosperous.

Ecotourism

As is my old dream, hospitality from all kinds of cultures and morals and places

Attention to detail in nature

For example, looking at the growth of a green bud during the change of season from winter to spring.

Asking questions

Curiosity is the engine of achievement, and for those who have turned asking questions into a hobby, the world is an endless source of wonder. Thrive on the discovery, seeking to understand the 'how' and 'why' behind everything from the mundane to the magnificent.

Wordless music & Saxo didge

Embracing the serene and intricate world of wordless music, I find joy in the pure, unadulterated sounds that transcend language and speak directly to the soul.
The saxo didge, a unique blend of saxophone and didgeridoo, captivates with its deep, resonant tones and the harmonious fusion of woodwind clarity and the ancient drone. This rare instrument symbolizes my appreciation for diverse musical traditions and the innovative fusion of different cultural sounds.

Reading & Study

The world of writings and reading writings and writing writings.
